THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, OCTOBER 28, 1869.

PRESIDENT LITTLEFIELD, OF NEW YORK.

The papers have already informed us that the Governor's "carpet-bag," confidential friend and adviser, the prince of the "Ring," and State Printer, Gen. M. S. Littlefield, of New York, has been "elected" by *the Governor's State Proxy*, President of the Western Division of the Western North Carolina Railroad. What do the people of the West, indeed, of the whole State, think of that!

This is the man who had the Legislature in his pocket, and manipulated the "Ring" bills, *alias*, the Railroad bills, constitutional and unconstitutional, through the Legislature; who got $100,000 in State bonds for the Chatham Railroad swindle; the same man who put the penitentiary swindle through.

The pure patriot and pre eminently honest citizen of New York, as the President of the above Road, has control of $7,000,000 State bonds! What do the plain people of the West, of all parties, think of it! What do they think of the Governor and his promises about Railroads? He appointed the State's Proxy that elected this man President; he appointed this man State Printer; he also appointed him State's Proxy, last year, for the Western N. C. Railroad Company.

We have told the people who Littlefield is and what he has been; and we have told the people who Gov. Holden is, and what he has done. It is said he is now, about the wealthiest man in the State. Do the people see! Do the people in the West think they are going to have a Railroad? They are *verdant* if they do! What! The "Ring," Holden and Littlefield, going to finish their Railroad! Let's see.

It was supposed that it would take $7,000,000 to build that Road, and the Legislature voted that sum; now we assert, that not exceeding $1,750,000 of that sum will ever be realized in actual construction on the Road; the balance will fritter away, in depreciation of bonds and other leakages in their management, so that, if seven millions were at first necessary for the work, *twenty one millions more*, of the same sort of bonds, under the same management, will be required to finish it. And here is how we arrived at this conclusion.

Seven Millions bonds, at the quoted prices in New York, are worth, now, not exceeding $1,750,000, just one fourth of the sum estimated as necessary to build the Road, therefore, it will require a further appropriation of $21,000,000 of the same sort and value of bonds on which to raise the remaining $5,250,000, of the $7,000,000. Q. E. D.

The bonds continue to get worse and worse, instead of better, and we should not be surprised at their falling to ten cents in the dollar before Spring. What do the people of the West thing of this sort of financeering, and what hopes can they entertain for the completion of their Road, under President Littlefield of New York?

FALSE REPORT.

It was reported Tuesday that Gov. Holden had a command of negroes and low whites ready to send to this point. The following in answer to a telegram will explain itself:

Raleigh, Oct. 26 1869.

Pay no attention to rumors. I am glad the people are quiet. I hope there will be no more strife and no more violation of law. I am most anxious that the civil law be maintained. I am trying to do right.

W. W. HOLDEN, Gov.

We clip the above from the Hillsboro' *Recorder* of the 27th inst. What evidence the editor had for leading the paragraph with the words "*False Report,*" we are unable to discover; certainly there is nothing in Gov. Holden's dispatch to justify them, while on the contrary it is a notorious fact that Bosher and others were enrolling negro militia volunteers here on Saturday, Sunday and Monday last. The Court House, portico and street adjacent, were crowded with these recruits on Monday, who were there going through the preliminaries of organization; and they openly spoke of going to Orange and Chatham "to hunt for Ku Klux."

Gov. Holden don't say, in his dispatch, that he has not enrolled negro militia to go to Orange and Chatham, for every body here knows he has, to the number of two hundred or more; some say the number is four hundred. Owing to the manifestation of public feeling on the subject, he may not send them; indeed, we hardly think he will; but they are on the Governor's muster roll, and, we suppose, on the *pay roll*, also, but that is a small matter to a people as wealthy and lightly taxed as North Carolinians are, just now!

We notice a number of wagon tracks to the State arsenal; we don't know where the arms were sent. It is rumored that a number of negroes in Chatham are being armed, and it may be that arms are being sent there.

P. S. Since writing the above, we find the business of enrolling is still progressing, and are informed that the number of two thousand are called for, by the Governor, not publicly, but secretly, through his confidential agents, who enrol none but negroes, and a great many of them of that vagabond class who, too lazy to work, are strolling about without employment. We are told, as a positive fact, that large quantities of arms and ammunition have been taken from the arsenal and sent off somewhere.

For the Sentinel.

THE "BRANCH RING" ONCE MORE.

Mr. Editor:—J. J. Mott, President of the W. N. C. Railroad publishes a card in the *Standard* in reply to a communication heretofore published in the SENTINEL, signed "James," propounding certain questions in regard to the late Stockholders' meeting of his Road. As it seems to me, he begs the question. He answers not one of the very important inquiries put to him by your correspondent, except, by a general assertion that "not a dollar directly or indirectly, was used or promised, to secure the result of the recent election at Newton," &c. He then assumes that the queries propounded, instead of being matters of public concern, aimed at him in his *official capacity*, are personal attacks upon his private, character. He therefore *dodges* them and intimates an intention to resort to violence.—This is very unwise on his part for two reasons; first, it gives notice to the police, and tends to prevent the desired object; and secondly, by refusing to answer, and beginning a row, the public are impressed with a belief that he *can not or dare not* deny the charges made, or answer the questions propounded. I believe it is a rule among lawyers—it is certainly common sense—that whatever the defendant *does not deny, he admits.* Tried by this rule, let us see what he admits.

The first question of "James" is, "How many bonds did you receive from the Treasurer, what did you do with them, and why ain't they mentioned in your report?" Not answered; therefore it is admitted that he received bonds from the Treasurer, that he has not accounted for them, and refuses to satisfy the public on this head.

2nd Enquiry; "How much did you pay towards a certain suit in the Supreme Court, and by what authority did you pay it?" Not answered, not denied; therefore admitted!

3rd Enquiry; "Are you part owner of the Lime beds, for which $80,000 is appropriated, and what other directors are interested in the same property?" Not answered, not denied, *admitted*!

4th Enquiry; "Why did you have that Branch Road let to contract to Smith, in such haste and without advertisement in the usual way?" Not denied, *admitted!*

5th Enquiry; "Did you or any one for you, promise to settle or compromise the claim of Fisher's administrators against the Road, for over $100,000 "&c." to get that Stock to vote for you &c." Denied generally, "that not a dollar directly or indirectly was used or promised" &c. See his Card. Denied also by Mr. R. A. Caldwell, one of the Administrators referred to. Yet it is well known that the offer to refer this claim to referees, was refused by the Board *just before* the Newbern meeting, and at the Newbern meeting Mr. Caldwell was made a director, the claim referred, and Mr. C., voted the whole Radical ticket with one exception! This is certainly a strange coincidence, to say the least of it. But give them the full benefit of this denial and pass on to the,

6th. Enquiry, "Did you or any one for you, promise to pay Hunt & Co. extra for their deep cut at Lambert's in order to get their stock?" Covered by the same general denial as in last question. And yet up to the Newton meeting it is said to be true that Hunt & Co. favored the re-election of the old Board, but on that day, at the last moment, they changed front, voted the full radical ticket with one exception, and the same day were allowed by the new Board extra pay amounting to about $20,000. Another *remarkably* strange co incident!

7th. Enquiry, "Did you or any one for you, your chief engineer for instance, make any threats or promises to John Malone on the mountain section, in order to get his stock; and did you not make a solemn promise when you got it, that it should be voted for Vance, Merrimon and McDowell? This is not answered, and not denied, for the general denial quoted from his card does not embrace it—and is therefore *admitted!*

8th Enquiry, "What did you take Judge Henry to New York for, and who paid his expenses?" Not answered! and therefore its implication is not denied. Perhaps Col. Tate, or A. J. Jones, could have assisted materially in answering this question.

Now these are matters of *public concern*. It is not merely the defeat of certain men that the public is interested in; that is indeed a small matter. But the crimes which caused it, the reason and the manner of doing it, have caused a general suspicion among those deeply interested in that enterprise, that those gentlemen were in the way of certain schemes to serve a few, and not the public interest. It will not do to decline answering and threaten personal violence to the man who asks these questions, nor will it satisfy the public to refuse to answer all of them *on any* ground, because he has already answered in part, no doubt as far as he could truthfully or safely. Now I have this proposition to make to Mr. Mott. He says these attacks upon him are *mean, malicious and cowardly*, but he has *not* said they are false. If he will answer every question fairly and candidly and *deny* the implication contained in each, I will withdraw every one that I am not able to *prove*, and publicly, over my proper signature, acknowledge that I have done him injustice. This is surely fair.

I regret that he has been unable to find the author of the article in question. Perhaps he might have learned his name if he had applied to the man most likely to know—the Editor of the SENTINEL. At all events he can ascertain by the above method; and the settlement of the matter by frank answers to questions put concerning his *official* conduct, to be followed by the proposed retraction, would be much more satisfactory to all concerned, except it may be, a few cowardly fellows I could name who stand out of danger themselves and delight to see their enemies hurt by somebody else's means.

JAMES.

THE BENCH AND THE BAR.

MR. EDITOR:—I do not propose, in this Essay, to add any new thing to the full and complete defense of the Bar which is contained in the recently published Review of the opinion of our Supreme Court; but I desire to illustrate and fortify its very sound doctrines by two recent cases of the highest authority.

In the late case *ex parte Bradley*, 7 Wall. 364, the *criminal Court* of the District of Columbia, took proceedings against Bradley for a contempt of Court,—just as the Supreme Court of this State took proceedings against Moore—(except that Bradley was *not disbarred for a moment, until after a full hearing*) and the *Supreme Court* of the District, after a hearing in that Court, ordered "that for the causes set forth in said rule the name of Mr. Bradley be stricken from the roll of Attorneys and Counsellors authorized to practice in this (Supreme) Court." The complaint against Bradley, in the Supreme Court of the District, was that he "had been guilty of contemptuous language towards the Judge (Fisher) in the progress of a trial in the (criminal) Court."

The Judges of the Supreme Court of the District, (of whom Fisher was one,) in their answer to a rule in the Supreme Court of the United States for a mandamus to restore Bradley to his profession, took the position, also, that "the conduct of Bradley was not merely a contempt of the authority of the Supreme Court, but was also gross misbehavior *in his office of Attorney*, and that for this reason also, his offence was cognizable by the Court in general term, irrespective of the doctrine of contempts." That he (Bradley) had been called on "to answer for specified acts as a contempt; yet, after his return was made, the Court, as it had the right to do, considered his offence in both aspects, and ordered that *for the causes set forth in said rule*, the name of Mr. Bradley be stricken from the roll, &c."

The Supreme Court of the United States decided,

1. That the *Supreme Court* of the District of Columbia could not notice a contempt committed towards the *criminal Court*, though the Judges were the same in both Courts.

2. In respect to the position taken by the Supreme Court of the District, that is, that it had power to disbar Bradley, if not to punish him, for a contempt, the Supreme Court of the United States said, "we do not doubt the power of the Court to punish Attorneys as officers of the same, for misbehavior in the practice of the profession.—This power has been recognized and enforced ever since the organization of Courts, and the admission of Attorneys to practice therein. If guilty of fraud against their clients, or of stirring up litigation by corrupt devices, or using the forms of law to further the ends of injustice; in fine, for the commission of any other act of official or personal dishonesty and oppression, they become subject to the summary jurisdiction of the Court. Indeed, in every instance where an Attorney is charged, by affidavit, with fraud or malpractice in his profession, contrary to the principles of justice and common honesty, the Court, on motion, will order him to appear and answer, and deal with him according as the facts may appear in the case. But, this is a distinct head of proceeding from that of contempt of Court or of members thereof, committed in open Court, or in immediate view and presence, tending to interrupt its proceedings, or to impair the respect due to its authority. This distinction is recognized in the act of 1831, already referred to, which, after providing for personal contempt in presence of the Court, authorizes attachments to issue, and summary punishment to be inflicted, for "the misbehavior of the officers of said Courts in their official transactions."

Without pursuing this branch of the case further, our conclusion is,

1st. That the Judges of the Court below (Supreme Court of the District,) exceeded their authority in punishing the relator for a contempt of that Court on account of contemptuous conduct and language before the criminal Court of the District, or in the presence of the Judge of the same.

2nd. That they possessed no power to punish him, upon an *ex parte* proceeding, without notice or opportunity of defence or explanation for misbehavior, or for any particular instance of the same generally in his office as Attorney of the Court, as claimed in the words of the return, "irrespective of the doctrine of contempts."

In the above opinion the reader cannot fail to see the unqualified condemnation of the doctrine announced and the course pursued by the Court "in the matter of B. F. Moore and others."

The Supreme Court, under act of Congress of 1831, similar in all respects to ours of 1869, recognizes two species of contempts of Court.

1. *Personal contempt in the presence of the Courts, or the members thereof, committed in open Court, or in immediate view and presence tending to interrupt its proceedings or to impair the respect due to its authority.*

2. *The misbehavior of officers of Court, out of Court in their official transactions*, not tending to interrupt its proceedings and impair the respect due to its authority; and as applied to Attorneys in particular, when they are "guilty of fraud against their clients or of stirring up litigation by corrupt devices or using the forms of law to further the ends of injustice, or in a word, as the act of Congress expresses it, "misbehavior in their official transactions;" or, as expressed in our act of April 1869, "misbehavior in any official transaction."

If a libel on the Court, published out of Court by an Attorney, could be construed to be "misbehavior in his official transactions," then the Court could take cognizance of it as a contempt, after notice and opportunity of defence," but not *before* such notice or opportunity. So says the Supreme Court of the United States. But no one is so simple as to say that a libel on the Court, by an Attorney is a "misbehavior in his official transactions."

The Supreme Court of the State in its opinion at page 405, North Carolina Reports, expressly concedes this point; but then the Court asserts jurisdiction to summarily punish by disbarring, because of a libel published by an attorney out of Court, whether the libel reflect on one or more, or all of its members, though the publication in no wise reflect upon their judicial conduct.

A recent case (*in re Wallace*) reported in the English Privy Council cases, vol. 1, 283, decided in November 1866, expresses a decided condemnation of such a doctrine.

"*In the matter of Thomas J. Wallace an Attorney and Barrister on appeal from the Supreme Court, Halifax, Nova Scotia. Contempt of Court—order suspending Attorney and Barrister for contempt of Court.*"

"An order suspending an Attorney and Barrister of the Supreme Court of Nova Scotia from practicing in that Court, for having addressed a letter to the Chief Justice, reflecting on the Judges and the administration of justice generally in the Court, discharged by the judicial committee, as it substituted a penalty and mode of punishment which was not the fitting and appropriate punishment for the offence.

The letter though a contempt of Court and punishable by fine and imprisonment having been written by a Practitioner in his individual and private capacity as a suitor, in respect of a supposed grievance as a suitor of an injury done to him as such suitor and having no connection whatever with his professional character, or anything done by him professionally, either as an Attorney or Barrister, it was not competent for the Supreme Court to go further than award to the offence the customary punishment for contempt of Court; or to inflict a professional punishment of indefinite suspension for an act not done professionally, and which *per se*, did not render the party committing it unfit to remain a Practitioner of the Court."

The question, which every one will ask upon reading this case, will be, if Wallace, after addressing a letter to the Chief Justice of Nova Scotia reflecting on the Judges and administration of justice generally, in his Court had not even under the broad powers over contempts in England, forfeited his *status* to practice in the Court, by what judicial or moral logic, did B. F. Moore and the other distinguished Attorneys forfeit theirs by the protest? A paper which made no reflection on the action of the Judges in their judicial characters, but merely deprecated and denounced their open partizan political demonstrations. Did they by this publication become so degraded in character as to be unfit to associate upon terms of equality with the least peerless of the five Judges of our Supreme Court? Have these Attorneys or any one of them lost their *status* as gentlemen by the publication? Let the Judges travel over the State and ask the question, of every man whose opinion they valued in 1867. We now see what care English Judges take of their Attorney's, and what care North Carolina Judges take of theirs.

An Attorney, as Lord Mansfield said, a hundred years ago, and as the emintent Judges of the English Privy Council now say, is to be disbarred *only because of his having lost his moral status.*

Let the good people of the State think of the case for a single moment, in this, its true aspect. Among the signers of the protest were two ex Governors, five ex-Judges, six ex-Attorney Generals, several ex Solicitors and distinguished members of Congress. Yet they, in the opinion of the Court had fallen so low in character by signing the protest, as *prima facie*, to be unfit to practice before their Honors:—or even before Mr. Justice Settle at Chambers!!! The irrepressible voice now proclaims aloud, that the Protest was no libel on the Court, but that the opinion of the Court is a libel on the law.

A LOVER OF CIVIL LIBERTY.

The ruins that have been discovered in Cambodia, Cochin China, says the *Revue Coloniale et Maritime*, prove that the inhabitants must at one time have been as highly civilized as they are now debased. Remains of sculpture have been discovered rivaling those produced in Greece in its best days. Well built bridges have been discovered in many parts, and the expedition conducted by M. de Lagree found remains of the same and other constructions as far as the fifteenth degree of north latitude. So extensive and numerous are these remains that they are considered to prove beyond dispute that at the time when they were built the country must have been densely populated by people rich and prosperous to a very high degree; indeed, there is positive evidence of the fact in the writings of a Chinese traveller, who speaks with warm admiration of the lavish manner in which gold was employed in the decorations of their monuments.

ANOTHER SWINDLE.

We learn from our exchanges, that, the N. C. R. R. has been leased to the R. & G. Railroad Company, for $240,000 per year.

We look upon this lease of the N. C. Road, as one among the numerous swindles that are being daily perpetrated upon the people, by the Ring.

In the first place, if there were no other objections to this lease, the price paid for the road is entirely too small. This Road if properly managed, would, pay considerably over $240,000, net profits. Then why should it be leased for less than it is worth? This can only be explained by the "Ring." In our opinion it is done for speculative purposes, and to prevent the consolidation of this road, with the Atlantic and North Carolina Railroad, which in justice to the people and the State, ought to have been effected long ago.—*Rutherford Star.*

When the new Union Hotel of Leland Brothers, at Saratoga, is completed, it will be the largest hotel in the world. It will have a frontage of 1,050 feet, five stories high. It will be built of brick, and the building will be divided into nine compartments, almost fire-proof. It is to be finished and furnished, ready for the reception of guests, by the first day of June next.

THE PENITENTIARY BOARD.—This Board was in session here yesterday (Wednesday,) and will, perhaps, continue to-day, if not longer. Yesterday, Dr. Wm. G. Hill, of Raleigh, was elected Physician to the Penitentiary, which was the only matter matured, in the day's session; the rest of the time being occupied in looking into the financial matters of the Board, examining the progress of the work at the penitentiary grounds &c.

The election of Dr. Hill will, we have no doubt, give general satisfaction; as he is by skill and experience thoroughly qualified for the responsible position, and has the respect and esteem of the entire community.

ICE.—We had ice yesterday morning, and from present indications, there will be more of the same sort this morning. It is not usual for it to make its appearance so early in the season, and we fear it is ominous of a hard winter.

A. CREECH.—Now, seeing the way we have commenced this paragraph, the reader will suppose we are going to write a tremendous puff about Creech, his cheap goods, and all that. Let any one who thinks so, read on and see. Indeed the purpose was to abuse him roundly; and to this end we made inquiries among his customers to find a good pretext for giving him "particular fits." We asked a stingy old lady if she don't have to pay pretty high prices for the goods she bought of Creech, when she answered, rather testily, "no I don't; I get the best bargains there that I can get any where." We asked her if she didn't find them of an inferior quality sometimes, and have to take them back to him. "No, I don't do that, neither. When I buy a thing from Creech, I always find it what he says it is." Well madam, you know his stock is small and—but here we found it best to be moving off, for the old lady and both her girls began to show symptoms of anger, while the old lady vociferated after us, "ain't got many goods, eh! I reckon he's got as full a store as any body, and ef you had as many goods as he's got, you wouldn't be wearing them old shoes you've got on."

We thought her remarks were becoming personal, and that, some how or other, Creech was responsible for it, and that we would pay him off the first time we found any body he had sold sorry goods to, or sold at too high a price; but we have not found any one yet. The mischief of it is, every body that goes there are bragging about what good bargains, and what nice goods they get.

SOMETHING NEW.—Passing by the "Temple of Fancy," of Mr. Ph. Thiem, on Tuesday night, our attention was arrested by a crowd of "all sorts" gathered around and intently gazing into the two front windows. Thinking they were attracted by a *big horn*, preserved monkey, or something of that sort, we were about passing on, when we caught sight of the new object that attracted the attention of the loungers, which was nothing less than a revolving gas jet in each window, kept in constant revolution by some hydraulic arrangement that we haven't philosophy enough on hand to understand. They are novel and very pretty, and as useful in the way of giving light as the plain jets.

CORRECTION.—We understand that Mr. Marcus Erwin is not to be principal editor of the *Standard*, as intimated in a late paragraph from the Asheville *Pioneer*, but will occupy the position of Assistant.

We learn from the *Standard* that the Governor has a lot of new furniture arrived in Wilmington. We are also happy to be able to state that old Wiley, the colored wood chopper, has a new axe handle.

MAKING HIMSELF USEFUL.—"Speaking of a shot gun," reminds us that our Attorney General has set about making himself useful, as he appeared as counsel in the "false imprisonment" case before Justice Adams, on Tuesday. This is the first official transaction we have heard of his being engaged in since his appointment, except endorsing the drafts for his salary.

COMING DOWN.—Passing along Hargett street yesterday, we witnessed the dismantling of the old *Standard* office, which is now in process, for the purpose, as we learn from rumor, of erecting a family residence thereon for the Governor's son-in law, the Attorney General.

Whether this be so or not, the old shanty is coming down, and the "time, place and circumstances which now know and surround it, will soon know and surround it no more forever!" Sad and pleasing reminiscences are connected with the old building. If walls could talk, these certainly "could a tale unfold," that would make many willing to pay "a right smart sum" to prevent the unfolding. We could write a lengthy "in memoriam" to the old shanty, but forbear until a future occasion.

A NATURAL CURIOSITY.—Mr. C. H. Horton, residing in this county, some twelve miles east of Raleigh, showed us, yesterday, several bunches or clusters of acorns, taken from a Post-oak in his grove, which are a considerable curiosity. The acorns are in clusters on the twigs, varying in number from ten to fourteen in a bunch, resembling clusters of grapes. Mr. Horton states that the entire tree is loaded with them growing in that way.

OUR STATE BONDS.

It will be remembered that our Governor, State Treasurer, and a number of Railroad Presidents, were in New York, recently, and it will also be remembered, or, rather, it cannot well be forgotten, that, with the exception of a remarkable fluctuation of three of four days while they were there, the bonds have continued to go down, down, down, until on yesterday, (Wednesday,) they were quoted at 38½, for new, and not very much better, being 47½ for old. The following paragraph, clipped from the New York *Herald* of the 25th inst., may throw some light upon the subject, as to the reason of this decline in our credit. They understand the subject well on Wall Street:

In Southern securities there was greater firmness in Tennessee, owing to the defeat of Andrew Johnson, whose election to the United States Senate would have been a challenge from the democratic party of the State to the republican party in Congress, and thus in the view of financiers, retarded the consummation of entire harmonious relations between the State and federal governments. In the North Carolinas there was a slow and gradual decline, inexplicable except from the fact that the "ring" who manage the State finances have been seen recently in Wall street, and no good is boded from their presence there. The general list was steady, but dull.

The following poetic lines, which we think very pretty, are the production of a pretty little maiden of Warrenton, N. C., aged only thirteen years. The youthful writer has a touch of the "divine afflatus," which, if allowed to expand, and is properly cultivated, will charm many hearts in days to come:

THE FIRST VIOLET.

O, sparkle down, ye April showers,
With opulence of silv'ry sheen;
A gladder life from heaven descends,
And clothes the vale with laughing green.

Already by the lonely stone,
With diamond dews divinely wet,
Where saintly moss keeps pensive watch,
Peeps up the sweet young violet.

What trust is in they fragrant leaves,
Though all so frail thy little stem,
Surely, upon the emerald sward,
Thou feel'st thyself a diadem!

And rightly feel'st,—such beauty rare
Symbolically beams sublime,
Soft, silent lyric for all hearts,
Smote sometime by the storms of Time.

O! hearts that now in winter writhe,
Heaven's eyes on you are also set,
And Mercy's showers will soothe the soul,
As dews revive the violet.

L'ESTELLE.

Warrenton, N C., Oct. 19, 1869.

THE CUBA AT WILMINGTON.—The U. S. Commissioner is still engaged in the examination of the case of the Cuban vessel, "Cuba" at Wilmington; in the meantime, the U. S. Government at Washington has settled the affair to their own satisfaction, unloaded and dismantled the vessel, and have now disposed of the crew, as we learn from the *Journal*, from which we clip the following:

"The crew of the *Cuba* are to be shipped to New York this morning, we hear, on the steamship Ashland. They are sent off by their officers or the agents of the Cuban government in this country. In standing by their officers and retaining their regard for discipline, these men have shown themselves singularly faithful."

We learn, says the *Roanoke News*, that an affray occurred at Halifax, on Sunday evening between two colored men which might have proved serious had one of them been a better shot.

It seems that J. A. Collins, a teacher of young ideas, and Lee Harrison, a clerk at John Bryant's store, had a difficulty (woman at the bottom) which culminated in a fight about dusk Sunday evening, first in a fisticuff, when Collins drew a pistol and fired at Harrison, the latter taking to his heels, when two other shots were fired, none of them taking effect, however. Collins was on Monday morning bound over in the sum of $100 to appear before the next term of the Superior Court.

Bishop Atkinson will peach in Weldon on Tuesday next.

Judge Watts re-opened his Court for Nash county, at Nashville, on Tuesday.

The up train on the Wilmington and Weldon R. R., on Tuesday morning, met with an accident near Wilson; two cars being thrown from the track, causing some detention to the trains both ways. Nobody hurt.

ESCAPED JAIL.—Nine prisoners confined in the Halifax jail, succeeded in making their escape on Saturday evening last.

George Bayliss, one of the Wade Ditcher murderers and under sentence to the Penitentiary, was among the number.

The above four items are from the Weldon *News*.

The Baptist State Convention of N. C., will hold its thirty ninth session with the church in Newbern, commencing on Wednesday the 10th of November, 1869.

The appointments for preaching are as following: Introductory Sermon—Rev. J. H. Phillips; alternate—J. L. Carroll; Missionary Sermon—Rev. J. C. Hiden; alternate—Rev. Wm. Royall, D. D.

J. L. CARROLL, Rec. Sec.

CHAMBER OF COMMERCE.—A large meeting of the members of the Chamber of Commerce took place in their Hall on yesterday to take into consideration the lease of the North Carolina Railroad to the Raleigh and Gaston Railroad.

By invitation Colonel S. L. Fremont addressed the meeting, giving much valuable and statistical information upon the subject.

A resolution was proposed by Colonel J. W. Atkinson and adopted, asking the President of the Chamber to call upon Mayor Neff and request him to issue, a call for a general meeting of the citizens at Thalian Hall, Friday evening, 20th inst.

We suppose the Mayor will cheerfully accede to this request, and we hope there will be a full turn out of the citizens. This is a subject of importance and it behoves all to show their appreciation of it.—*Wil. Journal.*

DIED,

Of Tuberculosis October 15th, MRS. LORETTA J. HOLDEN, wife of A. L. Holden in the 30th year of her age. She calmly passed away as one falling into a deep sleep. Her sufferings for several days until within a few hours of her death were intense but she bore all with Christian resignation and patience without a murmur or complaint. Thus another noble spirit has passed from time to eternity and while we shall never more behold her cheerful face or hear her musical voice on this earth; her memory still lives and will continue to live in the hearts of a fond and doting husband, an only daughter, an extensive circle of family connection, and numerous warm and devoted friends.

Wednesday Evening Dispatches.

WASHINGTON.

WASHINGTON Oct. 27.—Advices received at the Agricultural Department indicate a falling off of the tobacco crop of one-third in Virginia and Maryland, and one-tenth in Kentucky. The estimated falling off in the West will be largely increased by the early killing frosts which have badly damaged the uncured tobacco. The bulk of the crop has been saved.

The Democrats of California have elected eleven of the fourteen District Judges.

Belknap, the new Secretary of War, left Keokuk yesterday for Washington.

Butterfield had intimations from both Grant and Boutwell that his resignation was desired.—Grant wants a solid business man in the place.

The widely published report that Justice Swayne dissented from the Courts opinion in the Yerger habeas corpus case, is incorrect. Justice Swayne announced from his seat that Justice Miller, who was absent, dissented, and that lead to the mistake.

The papers publish a reported interview between the President and Senator Thayer, of Nebraska, on the subject of the Mississippi elections, from which it appears that the President supports Alcorn.

Tobacco is now paying the bulk of internal revenue.

Fisher, Commissioner of Patents, attends the Georgia State Fair at Macon.

Wednesday Midnight Dispatches.

WASHINGTON.

WASHINGTON, Oct. 27.—Revenue to-day $340,000

Mr. Ewing is fully restored to health.

Conscience fund in the Treasury amounts to $113,000.

Paraguayan Minister, McMahon, thinks Lopez's position stronger than ever before, and that the announcement, by the Allies, of the war being over, a mere pretext for withdrawing troops.

Virginia paid $2 194 000 revenue on tobacco for seven months ending september.

Chief Justice Chase said in the Supreme Court to-day that the question of jurisdiction in the Yerger case having been decided, the counsel could make a motion for a writ of habeas corpus whenever they thought proper.

NEW YORK.

NEW YORK, Oct. 27.—The *Tribune*, to-day says editorially: "We do not say that Gen. Butterfield was guilty of acts which unfitted him for the office of Assistant U. S. Treasurer in this city.—We do say that it is a good thing for the government that he no longer holds the office. Whether General Butterfield acted amiss, is to be the subject of an investigation which we hold it the part of fair dealing not to prejudge. That he was generally distrusted, and so, capable of injuring the credit of the Government, was a matter that needed no investigation, but called for prompt action.

The administration here, as in previous instances, has shown its determination to have its officials above even the suspicion of evil. And now why not rid the Treasury of its gold surplus by sales in open market, pay our debt, stop interest and remove alike all temptations and all cause for fear, about speculations in Government gold."

VIRGINIA.

RICHMOND, Oct. 27.—Two hundred members of the Society of Friends from the North, passed through here this evening to attend the annual meeting at Greensboro.

A freight train on the Chesapeake and Ohio R. R., ran into an accommodation train on the Richmond and Fredericksburg R. R, this morning at the Junction, smashing two cars and slightly injuring the Conductor and three others.

C. W Fitzgerald late merchant in this City, committed suicide this morning, in Amelia county, by blowing out his brains.

The Synod of Virginia meets here to-morrow. Rev. H. C Alexander, late of Princeton, has been elected Professor in the Presbyterian Union Theological Seminary.

NEBRASKA.

OMAHA CITY, Oct 27.—One hundred Indians have been burned by the prairie taking fire near Fort Rice.

WILMINGTON.

WILMINGTON, Oct 27.—The trial of the officers of the "Cuba" was resumed to-day, before U. S. Commissioner, James Dennison, one of the Engineers, Davis, a Marine, Capt. Moffitt and Capt. Boiles, two old naval officers, were examined for the defense. Their testimony was very favorable to the defendants and greatly weakened the evidence of Gordon, the principal witness for the Government. Davis testified that he had been offered $20 to give evidence against the ship.—The impression is very general now that the officers will be discharged.

The steamer Faribank arrived to-day from New York.

Austria and Turkey are acting in concert in suppressing the conspiracy.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug. 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
BEER'S SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers and Sup't of Introduction.

From Dr. WM. B. HARRELL, Prin. High School, Snow Hill, N C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALDERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.

ALDERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.

J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.

M. CLOSS.

From M L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work.

M. L. LITTLE,
Prin Pleasant Hill Seminary.

From Rev. S. IVEY, Prin Auburn Academy N C.:

AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STINGEON IVEY.

Prof. WM. A. OBERCHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq, Prin. Male Academy, Warrenton, N. C.

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.

J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance.

G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitency in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——, which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.

J. H. FOY.

From the Statesville, N. C. *American*, February 20th, 1866.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co, of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1866.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C *Presbyterian*, March 7, 1866.

NATIONAL FIRST READER. We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C Daily *Herald*, 1866.

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

MEDICINES, &C.

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE.

has induced Dr. Lawrence to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL.

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of CORROSIVE PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SILENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical) are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease without at the same time giving these something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21.09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 389 policies, received an income of seventy-eight thousand dollars, and possessed nett assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
